Newsletter

Issue 6 / Workshop Special March 2018

Editorial

Dear reader,

This issue of the SPEED-5G newsletter is a special edition fully dedicated to the SPEED-5G Workshop on 'Advanced spectrum management in 5G+ networks', which took place in London on 7th March 2018.

We hope you find the information in our newsletter informative, and we look forward to any questions or comments you may have. The next and final newsletter will be published in June 2018.

Kind regards,

The SPEED-5G consortium

[Productive discussions on spectrum management in 5G+ networks at SPEED-5G workshop in London](#)

Spectrum management is currently a hot topic. The strong audience interest in the SPEED-5G workshop on 'Advanced spectrum management in 5G+ networks' underlined this. The workshop was hosted by BT at BT Centre in London on 7th March 2018 and attracted an international audience of 51 attendees. They represented network operators, vendors, regulators and academia. The participants witnessed technical presentations, ...

[resource management solutions](#)

The SPEED-5G project consortium demonstrated its novel solutions for spectrum resource management to an interested audience at its

workshop in London on 7th March 2018. The descriptions and videos below convey a detailed impression of the demos. Demo 1: Combination of centralised and decentralised radio resource management with a novel MAC protocol for higher capacity in small cells This demo ...
